SUBJECT INDEX

Acetylacetone
Thermal stability and non-isothermal kinetic study of the decomposition of two coordination compounds of palladium and platinum with ligands derived from thiobenzamide and acetylacetone, 299
Activation energy
Calculation of activation energy and pre-exponential factors from rising temperature data and the generation of TG and DTG curves from A and E values, 77
Alkanol
Excess molar enthalpies of mixtures of a cycloalkane and an alkanol, 157
Anthranilic acid
A study of the phase transformation in anthranilic acid single crystals, 87
Arrhenius parameters
Distortion of the Arrhenius parameters by the inappropriate kinetic model function, 333

(Benzeneazo)-1,5-dihydroxynaphthalene
Novel aspects of the thermo-kinetic properties of cobalt(II), nickel(II) and copper(II) complexes of 2-(benzeneazo)-1,5-dihydroxynaphthalene, 43

Cadmium/ferricyanide system
A thermometric enthalpy titration study of the cadmium/ferricyanide system, 249
Carbon dioxide
Temperature and saturation effects on diffusion of carbon dioxide through "G" tunnel and Yucca Mountain tuffs, 33
$Cd(NO_3)_2-Na_2TeO_3-H_2O$
Physico-chemical study of the three-component system $Cd(NO_3)_2-Na_2TeO_3-H_2O$ at 25 and 100 °C, 327
$C_mE_{2m+1}\cdot(OC_2H_4)_n\cdot OH$
Patterns of molecular aggregation in aqueous mixtures of species of the type $C_mE_{2m+1}\cdot(OC_2H_4)_n\cdot OH$. Part 1. Applications of an empirical model to some C_mE_0 plus water systems, 229
$Co_{33}Zr_{67}$
Quantitative description of isothermal and non-isothermal nanocrystalline crystallization of $Co_{33}Zr_{67}$, 95
$CuO-CuO_{0.5}-BiO_{1.5}$ system
The 0.21 atm P_{O_2} isobar in the $CuO-CuO_{0.5}-BiO_{1.5}$ system, 129
Cycloalkane
Excess molar enthalpies of mixtures of a cycloalkane and an alkanol, 157

DSC systems
Calorimetric studies in high resolution DSC systems: identification and simulation by physical models, 63
DTA
DTA—why small samples?, 315
Dynamic thermogravimetry
Thermal degradation and determination of kinetic parameters by dynamic thermogravimetry of copolymers synthesized without initiator, 163

Entropy-controlled reactions
Entropy-controlled reactions: HF(g) and HCl(g) association as a pertinent example of the thermodynamically consistent treatment, 279
Ethyl iodide
Excess molar Gibbs free energies of ethyl iodide plus aromatic hydrocarbons at 308.15 K, 151

$(HCN)_3$
Linear versus cyclic $(HCN)_3$: a computational–thermodynamic study, 273
Heating programs
Some theoretical considerations on the degree of conversion, α_{max}, for various heating programs, 305
Hexamethylphosphorus
Thermogravimetry of wood reacted with hexamethylphosphorus triamide as a flame retardant treatment, 213
HZSM-5
A thermal study of the water-assisted phase transition in ZSM-5. Part 1. Effect of aluminium loss as removal or replacement with boron and of γ irradiation on the lattice structure of HZSM-5, 143
Kinetic parameters
Determination of kinetic parameters for de-

composition reaction from a single DTA curve, 119

Li_2SO_4–Na_2SO_4
Sub-solid equilibria in the systems Li_2SO_4–Na_2SO_4 and Na_2SO_4–K_2SO_4, 207

Multistep programmed thermogravimetry
Evaluation of the moisture and ash contents in wheat mills by multistep programmed thermogravimetry, 51

Na_2SO_4–K_2SO_4
Sub-solid equilibria in the systems Li_2SO_4–Na_2SO_4 and Na_2SO_4–K_2SO_4, 207

Oxomolybdenum(VI) oxalato complex
Preparation, characterization and thermal decomposition of a new oxomolybdenum(VI) oxalato complex, 201

P_4S_3
Sublimation enthalpy of solid P_4S_3 derived from vapour pressure measurements, 287

Palladium(II) chloride complex
The non-isothermal decomposition kinetics of palladium(II) chloride complexes with sulphoxides R–SO–$C_6H_4CH_3$ and thioethers R–S–$C_6H_4CH_3$, 135

Piperazine-*N*,*N*-di-β-propionic acid
Thermodynamics of the complexation of piperazine-*N*,*N*-di-β-propionic acid dihydrochloride with cobalt(II), nickel(II) and copper(II), 25

Polyacrylonitriles
Thermal analysis of metal polyacrylonitriles, 221

Polyaniline tosylate
Thermal analysis of polyaniline tosylate, 265

Pre-exponential factors
Calculation of activation energy and pre-exponential factors from rising temperature data and the generation of TG and DTG curves from A and E values, 77

Reaction kinetics
DSC sample temperature control while measuring reaction kinetics, 1

Silver/thiosulphate system
A thermometric enthalpy titration study of the silver/thiosulphate system, 255

Sodium acetate trihydrate–tartaric acid
An investigation into the use of the eutectic mixture sodium acetate trihydrate–tartaric acid for latent heat storage, 17

Sodium *n*-dodecyl sulphate
Thermodynamic studies on the interaction between sodium *n*-dodecyl suphate and histone H_2A, 183

Specific transient experiments
Calibration of a discontinuous reaction calorimeter by a set of specific transient experiments, 191

1,2,4-Trioxanes
The thermal decomposition of some 1,2,4-trioxanes, 337

Thermal degradation
Thermal degradation and determination of kinetic parameters by dynamic thermogravimetry of copolymers synthesized without initiator, 163

Thiobenzamide
Thermal stability and non-isothermal kinetic study of the decomposition of two coordination compounds of palladium and platinum with ligands derived from thiobenzamide and acetylacetone, 299

$UO_2(NO_3)_2urea_n$
Enthalpimetric measurements in solid–solid reactions. Part 9. The interactions of α- and β-$UO_2(NO_3)_2urea_2$ and $UO_2(NO_3)_2urea_3$ with n(urea), 173

Urea
Correlation of thermochemical data for ureas with the degree of N-substitution, 321

YPO_4–Na_3PO_4
Phase equilibria in the system YPO_4–Na_3PO_4, 293

ZSM-5
A thermal study of the water-assisted phase transition in ZSM-5. Part 1. Effect of aluminium loss as removal or replacement with boron and of γ irradiation on the lattice structure of HZSM-5, 143
